

I want to give a high recommendation Carol Aragon-Montgomery owner of ALTCS Planning for all the help she has given me in the pass two years. My wife Sue was diagnosed with Alzheimer seven years ago which was devastating to both myself and my wife. As her condition continually got worst it became apparent to me that I would need help caring for my wife. Since I have limited financial resources I knew I could not afford the service needed for my wife.

After speaking to my financial planner about my situation and the cost of long term care he suggested we find an expert in the field. I definitely found a good person in Carol Aragon-Montgomery. From the first time I met with her I felt like she cared about my family's medical and emotion needs. After expressing my concerns that I wanted the best care for my wife and that I wanted to keep her at home as long as possible, I knew a time was coming that I would no longer be able to take care of my wife.

Carol went to work immediately getting the information needed for the state of Arizona to provide aid. There was lots of paper work to be completed and several times I express my frustrations to her. She kept me calm and focus on completing the process. Once the long process was complete Carol was able to inform me on how it would affect me financially and the aid I would receive from Arizona. The stress it took off me when I

RECEIVED 02/19/2014

found out I would be able to stay in my home if my wife had to be put in a nursing home.

I was able to keep my wife at home until December of 2013 with the help of home health care that Carol helped set up. My wife was placed in a nursing facility in December that meets her need for medical and emotional care. This was a very difficult decision for me to make.

Carol was there for me every step of the way, and I know my wife is in a facility that takes care of her needs. The knowledge and more importantly the compassion she has shown for myself and Sue during the long process of acquiring the needed financial assistance is a ray of sunshine in today's assembly line business practices. Thank you again very much Carol.

Sincerely,

Bill Ligon
