Dear Long Term Care Planning Customer,

I am very pleased to recommend the services of ALTCSPanning.net. I used their services to help me with the long term nursing home care and finances for both my father and mother for over eleven years. The ALTCSPanning.net group were always very kind and helpful to me to communicate to and work with ALTCS, and handle the unexpected difficulties that arose due to my parent's health and financial issues. The ALTCSPanning.net group's counsel on financial matters was always right on and acceptable to ALTCS.

You could not be in any better hands having ALTCSPanning.net help you with your loved one's challenges, finances, long term care planning and interfacing with the ALTCS/AHCCCS system.

Regards,

Ray Thalman
